

Data sheet:

LN-121

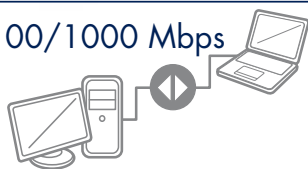

Product code : LN-121
Product name : Network Giga Switch 8 Port
EAN code : 8716502018284

This Network Giga Switch is a central unit for regulating, sending and receiving data to and from network adapters according to the fastest technology available for cabled home or office networks. The switch is fitted with a processor which handles the data throughput in an intelligent manner. This allows the Network Giga Switch to guarantee a constant throughput speed of up to 1000 Mbps on every port-connector. This switch has an intelligent power-saving functionality built-in which can save up to 70% in power consumption.

Suitable for 10/100/1000 Mbps networks

1000 Mbps wired speed
Ideal for HD Streaming,
gaming, sharing and
copying large files

Intelligent hardware
saves up to
70% power
consumption

Box content:

- Network Giga Switch 5 Port
- Power Adapter

System requirement:

- Compatible with all operating systems
